(B) Distributes to a security holder, in exchange for its securities solely stock or securities of a corporation (referred to in this section and Section 24533 as "controlled corporation") which it controls immediately before the distribution.

(2) The transaction was not used principally as a device for the distribution of the earnings and profits of the distributing corporation or the controlled corporation or both (but the mere fact that subsequent to the distribution stock or securities in one or more of such corporations are sold or exchanged by all or some of the distributees (other than pursuant to an arrangement negotiated or agreed upon prior to such distribution) shall not be construed to mean that the transaction was used principally as such a device),

(3) The requirements of Section 24533 (relating to active businesses) are satisfied; and

(4) As part of the distribution, the distributing corporation distributes—

(A) all of the stock and securities in the controlled corporation held by it immediately before the distribution; or

(B) an amount of stock in the controlled corporation constituting control within the meaning of Section 24564, and it is established to the satisfaction of the Franchise Tax Board that the retention by the distributing corporation of stock (or stock and securities) in the controlled corporation was not in pursuance of a plan having as one of its principal purposes the avoidance of California tax;

then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder or security holder on the receipt of such stock or securities.

(b) Paragraph (1) shall be applied without regard to the following:

(1) Whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation;

(3) Whether or not the distribution is in pursuance of a plan of reorganization (within the meansing of Section 24562(a)(4)).

(c) Subsection (a) shall not apply if—

(1) The principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution; or

(2) Securities in the controlled corporation are received and no securities are surrendered in connection with such distribution.

For purposes of Sections 24532 and 24533, inclusive (other than paragraph (a)(4) of this subsection), and so much of Section 24535 as relates to this section and Section 24533, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction which occurs within five years of the distribution of such stock and in which gain or loss was recognized in whole or in part shall not be treated as stock of such controlled corporation, but as other property.

24533. (a) Section 24532 shall apply only if either—

(b) For purposes of subsection (a), a corporation shall be treated as engaged in the active conduct of a trade or business if and only if—

(1) It is engaged in the active conduct of a trade or business, or substantially all of its assets consist of stock and securities of a corporation controlled by it (immediately after the distribution) which is so engaged;

(2) Such trade or business has been actively conducted throughout the five-year period ending on the date of the distribution;

(3) Such trade or business was not acquired within the period described in paragraph (2) in a transaction in which gain or loss was recognized in whole or in part; and

(4) Control of a corporation which (at the time of acquisition of control) was conducting such trade or business—

(A) Was not acquired directly (or through one or more corporations) by another corporation within the period described in paragraph (2), or

(B) Was so acquired by another corporation within such period, but such control was so acquired only by reason of transactions in which gain or loss was not recognized in whole or in part, or only by reason of such transactions combined with acquisitions before the beginning of such period.

SEC. 4. Section 24535 of the Revenue and Taxation Code is amended to read:

24535. (a) If—

(1) Section 24531, 24532 or 24533 would apply to an exchange but for the fact that—

(2) The property received in the exchange consists not only of property permitted by Section 24531, 24532 or 24533 to be received without the recognition of gain but also of other property to money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(b) If an exchange is described in subsection (a) but has the effect of the distribution of a dividend, then there shall be treated as a dividend to each distributee such an amount of the gain recognized under subsection (a) as is not in excess of

his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under subsection (a) shall be treated as gain from the exchange of property.

SEC. 5. Section 24536 of the Revenue and Taxation Code is amended to read:

24536. If—

(a) Section 24532 or 24533 would apply to a distribution but for the fact that—

(b) The property received in the distribution consist not only of property permitted by Section 24532 or 24533 to be receied without the recognition of gain, but also of other property or money;

then an amount equal to the sum of such money and the fair market value of such other property shall be treated as a distribution of property to which Sections 24451 and 24453 apply.

SEC. 6. Section 24537 of the Revenue and Taxation Code is amended to read:

24537. If—

(a) Section 24531 would apply to an exchange, or Section 24532 or 24533 would apply to an exchange or distribution, but for the fact that—

(b) The property received in the exchange or distribution consists not only of property permitted by Section 24531, 24532 or 24533 to be received without the recognition of gain or loss, but also of other property or money;

then no loss from the exchange or distribution shall be recognized.

SEC. 7. Section 24538 of the Revenue and Taxation Code is amended to read:

24538. For purposes of Sections 24535 to 24539, inclusive—

(a) Except as provided in subsection (b), the term "other property" includes securities,

(b) The term "other property" does not include securities to the extent that, under Section 24531, 24532 and 24533, such securities would be permitted to be received without the recognition of gain.

If—

(1) In any exchange described in Section 24531 (other than subsection (c) thereof), securities of a corporation a party to the reorganization are surrendered and securities of any corporation a party to the reorganization are received; and

(2) The principal amount of such securities received exceeds the principal amount of such securities surrendered;

then, with respect to such securities received, the term "other property" means only the fair market value of such excess. For purposes of this paragraph and paragraph (c), if no securities are surrendered, the excess shall be the entire principal amount of the securities received.

(c) If, in an exchange or distribution described in Section 24532 and 24533, the principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities in the distributing corporation which are surrendered, then, with respect to such securities received, the term "other property" means only the fair market value of such excess.

SEC. 8. Section 24541 of the Revenue and Taxation Code is amended to read:

24541. (a) In the case of an exchange to which Sections 24521, 24531, 24532, 24533, 24535, 24551, and 24571 apply—

(1) The basis of the property permitted to be received under such section without the recognition of gain or loss shall be the same as that of the property exchanged—

(A) Decreased by—

(i) The fair market value of any other property (except money) received by the taxpayer; and

(ii) The amount of any money received by the taxpayer; and

(B) Increased by—

(2) The basis of any other property (except money) received by the taxpayer shall be its fair market value.

(b) (1) Under regulations prescribed by the Franchise Tax Board, the basis determined under subsection (a) (1) shall be allocated among the properties permitted to be received without the recognition of gain or loss.

(2) In the case of an exchange to which Sections 24532 and 24533 (or so much of Section 24535 as relates to Section 24533) apply, then in making the allocation under paragraph (1) of this subsection, there shall be taken into account not only the property so permitted to be received without the recognition of gain or loss, but also the stock or securities (if any) of the distributing corporation which are retained, and the allocation of basis shall be made among all such properties.

(c) For purposes of this section, a distribution to which Section 24533 (or so much of Section 24535 as relates to Sections 24532 and 24533) applies shall be treated as an exchange, and for such purposes the stock and securities of the distributing corporation which are retained shall be treated as surrendered, and received back, in the exchange.

(d) Where, as part of the consideration to the taxpayer, another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for purposes of this section, be treated as money received by the taxpayer on the exchange.

(e) This section shall not apply to property acquired by a corporation by the issuance of its stock or securities as consideration in whole or in part for the transfer of the property to it.

SEC. 9. Section 24561 of the Revenue and Taxation Code is amended to read:

24561. In determining the extent to which gain shall be recognized in the case of any of the exchanges described in Sections 24502, 24521, 24532, 24533, 24535, or 24551, a foreign corporation shall not be considered as a corporation unless, before such exchange, it has been established to the satisfaction the Franchise Tax Board that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of taxes under this part.

SEC. 10. Section 17433 is added to the Revenue and Taxation Code, to read:

17433. (a) If—

(1) A corporation (referred to in this section as the "distributing corporation")—

(A) Distributes to a shareholder, with respect to its stock; or

(B) Distributes to a security holder, in exchange for its securities, solely stock or securities of a corporation (referred to in this section and Section 17434 as "controlled corporation") which it controls immediately before the distribution;

(2) The transaction was not used principally as a device for the distribution of the earnings and profits of the distributing corporation or the controlled corporation or both (but the mere fact that subsequent to the distribution stock or securities in one or more of such corporations are sold or exchanged by all or some of the distributees (other than pursuant to an arrangement negotiated or agreed upon prior to such distribution) shall not be construed to mean that the transaction was used principally as such a device);

(3) The requirements of Section 17434 (relating to active businesses) are satisfied; and

(4) As part of the distribution, the distributing corporation distributes—

(A) All of the stock and securities in the controlled corporation held by it immediately before the distribution; or

then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder or security holder on the receipt of such stock or securities.

(b) Subsection (a) shall be applied without regard to the following:

(1) Whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation;

(2) Whether or not the shareholder surrenders stock in the distributing corporation; and

(3) Whether or not the distribution is in pursuance of a plan of reorganization (within the meaning of Section 17461(a)(4)).

(c) Subsection (a) shall not apply if—

(1) The principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution; or

(2) Securities in the controlled corporation are received and no securities are surrendered in connection with such distribution. For purposes of this section and Section 17434 (other than subsection (a)(3)) and so much of Sections 17435 to 17439 as relates to this section and Section 17434, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction which occurs within five years of the distribution of such stock and in which gain or loss was recognized in whole or in part, shall not be treated as stock of such controlled corporation, but as other property.

(d) For treatment of the distribution if any property is received which is not permitted to be received under this section (including an excess principal amount of securities received over securities surrendered), see Sections 17435 to 17439, inclusive.

SEC. 11. Section 17434 of the Revenue and Taxation Code is amended to read:

17434. (2) Such trade or business has been actively conducted throughout the five-year period ending on the date of the distribution;

However, a local member shall not receive credit as state service for any portion of his public agency service constituting prior service unless he has elected to make, and has made, contributions pursuant to Section 20940.3, for all of his public agency service constituting current service.

20940.3. Any local member of this system who elects, pursuant to Section 20940.2, to make contributions and receive credit as state service for all or any part of the time he was in public agency service, shall contribute to the retirement fund prior to the effective date of his retirement, by lump sum payment or by installment payments, over a period not in excess of the length of time for which the local member has elected to receive credit for public agency service as state service, at times, and in a manner fixed by the board, an amount equal to the sum of (a) the contributions he would have made to the retirement fund if he had been in state service during the time he was in public agency service, and for which he has elected to receive credit for state service, computed by applying the rate of contribution first applicable to him upon commencement of his membership in this system as a local member to the monthly compensation first earnable by him at the time of commencement of his membership as a local member multiplied by the number of months of public agency service for which he has elected to receive credit for state service and which will constitute current service under this system, (b) the contributions that would have been made by the contracting agency in respect to him if he had been in state service during the time he was in public agency service, and for which he has elected to receive credit for state service, excluding any such contributions with respect to prior service, computed by applying the rate of contribution with respect to members of his category at the time of commencement of his membership as a local member in this system to the monthly compensation first earnable by him at the time of commencement of his membership as a local member in this system multiplied by the number of months of public agency service for which he has elected to receive credit for county service and which will constitute current service under this system and (c) the interest which would have accrued to such local member contributions and such contracting agency contributions if they had been made on the date of commencement of membership by the local member in this system, from that date until the completion of payment of those contributions computed at the current interest rate.

At the time of his retirement a local member shall not receive credit as state service for any public agency service in excess of that for which he has completed payment of contributions as provided in this section. Any local member who has elected to make such contributions by installment payments may, at any time prior to the effective date of his retirement, complete payment of such contributions by lump sum payment. All contributions made pursuant to this section shall be considered to be, and shall be administered as, normal contributions by the local member.

20940.4. Upon completion of contributions of the amount specified in Section 20940.3, the local member shall be credited with state service in the amount of public agency service for which he has elected to receive credit as state service. The state service with which the member is so credited shall be credited as current service, or prior service, or both, as it would be credited if the local member had been in the state service during the time he was actually in public agency service.

20940.5. The exercise by a local member of the right of election specified in Section 20940.2 shall not require any public agency by which the member was employed before commencement of his membership in this system as a local member to make any contributions to this system.

Senate Resolution No. 107

Relative to memorializing the Congress of the United States to enact legislation providing for the better care and support of the senior citizens of this Country

WHEREAS, At the present time, the proper care and assistance of our senior citizens has become a matter of nation-wide interest; and

WHEREAS, Our senior citizens are confronted with many problems in maintaining their livelihood, which problems are those arising out of the increasing mechanization of our industrial system, out of the greatly increasing longevity of our people, and out of the fact that economic changes have destroyed the financial independence of a large number of our people, including even those who had prudently prepared for the time when they could no longer earn a livelihood; and

WHEREAS, It seems wise to retire from industry and business those whose efficiency is declining because of advancing years, thus giving more opportunity for employment and advancement to younger workers; and

WHEREAS, Experience has shown that when ownership of property disqualifies a senior citizen for receipt of an old age pension or assistance, a serious injustice is effected and a penalty imposed upon those whose prudence and thrift has led them to prepare for advancing age by investment in a home or other small holdings, but who have no income with which to support themselves and to preserve their property; and

WHEREAS, There are, at present, measures pending in the Congress of the United States, including a measure which proposes a plan sponsored by Dr. Francis E. Townsend, which would seek to remedy these situations; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate of the State of California does hereby respectfully memorialize the Congress of the United States to consider thoroughly and most carefully the provisions of any plan as may be presented in legislation proposed for enactment by the Congress, and also to consider thoroughly and most carefully any other plans that may be presented to the Congress, or to any commissions created by the Congress, relating to the better care and support of dependent aging people, so that the welfare of these people shall be better protected by the eventual enactment of appropriate legislation; and be it further

Resolved, That the Secretary of the Senate of the State of California is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Member of the House of Representatives from California in the Congress of the United States.

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO 14, May 13, 1955

Hon. Harold J. Powers
President of the Senate
Hon. L. H. Lincoln
Speaker of the Assembly

GENTLEMEN: Pursuant to the provisions of Chapter 1573, Statutes of 1951, the Department of Finance submits herewith a report to the Legislature on surplus state-owned lands.

On July 19, 1954, the Department of Finance issued Management Memorandum No. 54-13 to all state agencies under the subject, "Annual Inventory and Report of Excess State Lands." This memorandum reads in part as follows:

> "This is to call to your attention Section 11011 of the Government Code, which requires all state agencies to submit to the Department of Finance annually a report on lands that are in excess of foreseeable needs. If there then appears to be no other state use for such properties, the Department of Finance will request legislative authority to dispose of the surplus parcels and return them to local tax rolls.

"It is requested that each agency make an extremely careful and thorough review of the state lands under its jurisdiction, and on or before September 30, 1954, inform this department of properties that are in excess of needs."

In response to this memorandum, 17 parcels comprising approximately 650 acres have been submitted by various agencies as being surplus to their foreseeable needs. These properties have an estimated value of $250,000, and are described in detail in the body of this report. It is recommended that legislation to sell, exchange, or otherwise dispose of these parcels be enacted at the 1955 Session. The Department of Finance has caused Senate Bill No. 743 to be introduced for this purpose.

Under statutory authority granted at prior legislative sessions, the Department of Finance sold six parcels of surplus property during the past year. In addition to realizing $174,531 for the General Fund, these sales resulted in the return of the properties involved to various city and county tax rolls. A more complete description of the six parcels and details of their sale may be found in Supplement "A" of this report.

On the general subject of surplus state lands, the Department of Finance wishes to acknowledge receipt of a copy of a report recently issued by the Senate Interim Committee on Public Lands. This is a most comprehensive study of state-owned lands, including significant comments on certain apparent excess holdings, and the benefits to be realized from the information contained in the committee's report should be reflected in future Department of Finance reports on surplus state-owned lands.

Yours very truly,

JOHN M. PEIRCE, Director of Finance

Report ordered filed with the Secretary of the Senate.

"7714.1. Notwithstanding any other provisions of this chapter, a district which applies for an apportionment for the purchase of a site, which is not a part of a construction project, shall make a separate application for such site.

All of the provisions of this chapter apply to such application and apportionment except that:

(a) Any application for the site pursuant to this section which is received by the board shall be transmitted to the Department of Education. If the Department of Education determines that within five years from the date of the application there will be sufficient enrollment in the district to show the need of such site, it may approve the application and refer it to the board which shall either approve or reject the application pursuant to Section 7713. Any provision of Section 7713 inconsistent with this section shall not apply to such application.

(b) Sections 7705 and 7705.1 do not apply.

(c) If the application is approved and an apportionment granted therefor the district shall repay the full amount of such apportionment and the interest thereon. The repayment of the apportionment, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the fiscal year next succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. Such repayment is in addition to any other repayment required under this chapter. [If the site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, the district shall not be required to make any further repayments for site pursuant to this section and and the unpaid balance of the apportionment and interest owing on the apportionment for the site pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project.] *If an apportionment is or has been made at any time after September 9, 1953, for construction on said site, from and after the date said apportionment becomes, or became, final, no repayment deductions by the Controller pursuant to Section 7731 attributable to the apportionment for said site shall thereafter be made, except that any such repayment deductions attributable to such site apportionment which would otherwise be made by the Controller during the fiscal year in which such construction apportionment becomes final shall be made during such fiscal year only. The balance of the principal amount of the apportionment for said site, and accrued interest thereon, shall be added by the Controller to and become part of the apportionment for construction, as of the date of such apportionment, and repaid in the manner otherwise prescribed by this article. The Controller shall promptly notify the governing board of the district and the County Auditor of the county, the county superintendent of which has jurisdiction over the district, of any revision required by this section of any previous commutation made by him pursuant to Section 7735.*"

Amendment No. 4

On page 1, strike out lines 27 and 28 and on page 2, strike out lines 1 through 18, and insert

"According to legal opinion, the first annual repayment under this chapter is constructively paid at the beginning of the fiscal year following the year in which an apportionment for a school site has been made, although the actual cash transfers and tax collections involved, occur between one and two years later. As a result, school districts that have had site apportionments merged with construction apportionments, as provided by Section 7714.1, must nevertheless levy the special additional taxes with respect to such site apportionment a year or more after the consolidation of the two apportionments.

The situation arising out of this legal interpretation was contrary to the general understanding of the operation of the special repayment provisions of Section 7714.1. It inadvertently leaves an additional tax burden on heavily taxed school districts and discourages the purchase of urgently needed school sites. Since such additional taxes will be levied in the 1955-56 Fiscal Year if this act does not become operative until 90 days after adjournment of the 1955 Legislature, it is necessary that it take effect immediately."

WHEREAS, As a result of this gradual accretion of statutory provisions and these parallel scientific advances, there are now in effect many obsolete and duplicate provisions and provisions containing archaic terminology; now, therefore, be it

Resolved by the Senate of the State of California, That the Legislative Counsel is requested and directed to render all necessary assistance to the Department of Public Health in reviewing Divisions 1, 2, 3, and 4; Part 1 and Chapters 3 and 4 of Part 2 and Articles 2 and 3 of Chapter 6 of Part 3 of Division 5; Part 1 and Chapter 1 of Part 2 of Division 7; and Divisions 9 and 16; and Chapters 1, 3, 4, 5, and 6 of Division 20; and Divisions 21 and 22 of the Health and Safety Code, and such other portions of the statutory public health law of this State as may appear to the department to be in need of modernization, and to prepare a revision thereof in accordance with present day practices and terminology. RESOLUTIONS

The following resolutions were offered:

By Senator Collier:

Senate Resolution No. 110

Relative to salary increases for members of the California Highway Patrol

WHEREAS, The Budget Act of 1955 makes funds available for salary increases for state officers and employees, including members of the California Highway Patrol; and

WHEREAS, In making these funds available it is the intent of the members of the Legislature that such increases be made effective by the State Personnel Board as of July 1, 1955; now, therefore, be it

Resolved by the Senate of the State of California, That, when the State Personnel Board provides for salary increases for the members of the California Highway Patrol pursuant to the Budget Act of 1955, it is hereby requested to make such increases effective as of July 1, 1955; and be it further

Resolved, That the Secretary of the Senate is directed to send a copy of this resolution to the State Personnel Board.

Resolution read, and re-referred to Committee on Rules.

By Senator Hulse:

Senate Resolution No. 111

Relative to a Senate Committee on State and Local Taxation to make inquiry into every phase of taxation, creating the committee and defining its powers and duties

WHEREAS, The economy of the State of California has during the recent years gone through a revolutionary change, so that industry has assumed an increased importance in relation to agriculture, mining, and commerce; and

WHEREAS, This change has resulted in bringing into the State industries and properties of large value which have not previously been considered in our tax structure, and has created new governmental problems; and

WHEREAS, The increased population incident to this change in our economy has also created new governmental problems and made new demands upon both local and state governments; and

WHEREAS, the unprecedented growth of motor transportation and the changeover to the use of diesel fuel in motor transportation during the war period, together with the added population of our State and the concentration in industrial centers, has materially changed the requirements for the support of highways, streets, and bridges; and

WHEREAS, It appears that there may be large sums in the way of federal subsidies granted both to the state and local governments which will directly affect the revenue structure and will require careful examination to coordinate the disposition of these subsidies equitably into the entire revenue program of both state and local governments; and

WHEREAS, From the beginning of the State's history, the ad valorem tax has been and still is the fiscal mainstay of local government and has not been adjusted to meet the new conditions; and

WHEREAS, The administration of taxation by the State and by the local governments has not been modernized, in fact has not been materially changed to bring it into line with present or prospective needs; and

WHEREAS, The relative burden of our several taxes on the different classes of taxpayers and different classes of property has not been fully determined; and

WHEREAS, There are new classes of property and rights that have grown up in the State that are not subject to taxation; and

WHEREAS, The acquisition, holding and exchange of land in this State by the United States of America has many aspects and involves varied and varying relationships, including the bearing and effect thereof upon taxes levied or leviable by the State and by local governmental units within the State; and

WHEREAS, Neither the state nor local governments have available to their legislative bodies information concerning all the varied phases of this problem adequate to legislative consideration and action in the endeavor to find and effect a solution; and

WHEREAS, For many years the burdens of government have been increasing both for the state and local governments, including many fixed charges not controllable by administrative bodies but brought about in answer to the demand of the people expressed in continuing legislation or in constitutional requirements, it is imperative that an appraisal be made so that revenues may be made adequate to meet the demands of government, both local and state, and the burdens of taxation may be equitably distributed upon and among the several classes of property and of taxpayers; now, therefore, be it

Resolved by the Senate of the State of California, As follows:

1. MOTION TO PRINT OPINION OF LEGISLATIVE COUNSEL

OPINION OF LEGISLATIVE COUNSEL

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL
SACRAMENTO, CALIFORNIA, May 20, 1955

Hon. J. Howard Williams
Senate Chamber

Senate Bill 1659—No. 12114

DEAR SENATOR WILLIAMS: You have asked us the following questions in connection with Senate Bill 1659, as amended in the Senate May 13, 1955, as the bill would be further amended by amendments prepared under Request No. 12010. The bill relates to the creation of a Department of Water Resources.

As amended the bill will provide for a State Water Board which, among other things, will establish policies and prescribe rules and regulations to govern the department in the exercise of its powers and duties (Amendment No. 15). The department will be in charge of a director who shall administer it in accordance with the policies, rules, and regulations adopted by the board (Amendment No. 17). The director is to be appointed by the Governor subject to Senate confirmation and is to hold office at the pleasure of the Governor (Amendment No. 11).

You ask:

How can the board force the director to follow the board's policies, rules and regulations?

Can the board bring a court action?

The most expeditious method for the board to require the director to perform his duties in accordance with the board's policies, rules and regulations would be to bring the defaults of the director in these respects to the attention of the Governor, who could remove the director for failure to perform his duties in accordance with the bill.

Whether or not the board could bring a judicial proceeding against the director to compel him to abide by its policies, rules and regulations is not entirely certain. However, there is some authority in the present law under which the board might be able to compel specific action of the director to conform to its policies, rules and regulations.

Under Section 1085 of the Code of Civil Procedure a court may issue a writ of mandate to compel the performance of an act which the law specially enjoins, as a duty resulting from an office. Such a writ may be issued upon the verified petition of a party beneficially interested. (Sec. 1086, C.C.P.)

A public officer or body may be a party beneficially interested where the object of the proceeding is to procure the enforcement of a public duty, even though the board or officer has no legal or special interest in the result (*Board of Social Welfare* v. *County of Los Angeles*, 27 Cal. 2d 98, and see 35 Am. Jur. p. 76).

While it is true that the above mentioned provisions do not specifically authorize a state board or agency to petition for a writ of mandate there is no particular reason for concluding that the Legislature did not intend to permit this to be done. A somewhat analogous situation is that which arose in *Hoyt* v. *Board of Civil Service Commissioners*, 21 Cal. 2d 399, in which it was held that a governmental body was within the term "person" as used in Section 1060 of the Code of Civil Procedure, relating to declaratory judgments. (See, also, *Lord* v. *Garland*, 27 Cal. 2d 840, 852.)

It seems to us, therefore, that there would be a substantial possibility under the bill as proposed to be amended that the board could bring a legal proceeding to compel the director to act in relation to a particular matter in accordance with the board's policies, rules and regulations.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel
By JOSEPH W. PAULUCCI, Deputy

Secretary's Report on Condition of Senate File

Hon. Harold J. Powers
President of the Senate

DEAR MR. PRESIDENT: This is the 104th calendar day, leaving us 16 calendar days to complete the session. If we omit two Sundays, the twenty-ninth of May and the fifth of June, we have 14 days left. Should we recess on the thirtieth, which is Memorial Day, we will have only 13 days in which to finish the work of the session.

At the conclusion of the 103d calendar day of 1953, 1,165 measures had been sent to the Governor. To date this session, we have sent 1,058. Continuing to estimate that we will act upon as many measures this session as we did last, we have 1,273 still to receive final action, or an average of 98 per day, including today, from now until the end of the session, which will mean an average of 120 roll calls per day considering concurrences in amendments, adoption of urgency clauses, etc.

Toward the close of the session, it is necessary to give considerable time to considering and concurring in Assembly amendments to Senate bills, and adoption of conference committee reports. On June 10th, the last day of the 1953 Session, we called the roll 75 times on concurrence of Assembly amendments and adoption of conference reports.

Respectfully submitted,

J. A. BEEK
Secretary of the Senate

Senate Resolution No. 107

Relative to memorializing the Congress of the United States to enact legislation providing for the better care and support of the senior citizens of this Country

WHEREAS, At the present time, the proper care and assistance of our senior citizens has become a matter of nation-wide interest; and

WHEREAS, Our senior citizens are confronted with many problems in maintaining their livelihood, which problems are those arising out of the increasing mechanization of our industrial system, out of the greatly increasing longevity of our people, and out of the fact that economic changes have destroyed the financial independence of a large number of our people, including even those who had prudently prepared for the time when they could no longer earn a livelihood; and

WHEREAS, It seems wise to retire from industry and business those whose efficiency is declining because of advancing years, thus giving more opportunity for employment and advancement to younger workers; and

WHEREAS, Experience has shown that when ownership of property disqualifies a senior citizen for receipt of an old age pension or assistance, a serious injustice is effected and a penalty imposed upon those whose prudence and thrift has led them to prepare for advancing age by investment in a home or other small holdings, but who have no income with which to support themselves and to preserve their property; and

WHEREAS, There are, at present, measures pending in the Congress of the United States, including a measure which proposes a plan sponsored by Dr. Francis E. Townsend, which would seek to remedy these situations; now, therefore, be it

Resolved by the Senate of the State of California, That the Senate of the State of California does hereby respectfully memorialize the Congress of the United States to consider thoroughly and most carefully the provisions of any plan as may be presented in legislation proposed for enactment by the Congress, and also

to consider thoroughly and most carefully any other plans that may be presented to the Congress, or to any commissions created by the Congress, relating to the better care and support of dependent aging people, so that the welfare of these people shall be better protected by the eventual enactment of appropriate legislation; and be it further

Resolved, That the Secretary of the Senate of the State of California is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Member of the House of Representatives from California in the Congress of the United States.

COMMUNICATIONS

The following communication was received and read, and on motion of Senator Teale, ordered printed in the Journal:

CALIFORNIA INDIANS' CONGRESS
May 18, 1955

It is my sad duty to inform you of the passing of the California Indian's very dearest friend, Senator Dale C. Williams.

At no time in California history has any member of either the Congress or the Legislature made such a sincere understanding effort to better the circumstances of the California Indian.

His prompt action in having Senate Joint Resolution No. 4 passed last year saved us from certain doom of a premature termination.

During this session of the Legislature he introduced the legislation that restored our rights to hunt and fish on our reservations.

Because of ill health, in recent months much of his work on our behalf was carried on from his bedside.

While his legislative contributions to our cause were most gratifying, his unwritten toil and inspiration will always endear him to us. He restored in us an almost forgotten pride, to be equal to any man; he refreshed our fading hope for the future, and strengthened our faith in our fellow Americans.

We had planned to make him the First Honorary Chief of the California Indians' Congress, at our convention on June 18th and 19th. This ceremony will go on as scheduled with Mrs. Dale C. Williams receiving that honor on his behalf.

To the many Indians who were making him Indian gifts, I urge you to be generous, remembering that his sacrifice was greater. Bring these gifts with you to our convention for presentation to Mrs. Williams.

Respectfully,

ERIN FORREST, President
Alturas, California

P. S. "Greater love hath no man than this, that he lay down his life for his friend." *We* were that friend.

LETTER OF TRANSMITTAL

JOINT LEGISLATIVE COMMITTEE ON
AGRICULTURAL AND LIVESTOCK PROBLEMS
SENATE, CALIFORNIA LEGISLATURE, May 24, 1955

The President of the Senate
The Speaker of the Assembly
And Other Members of the Senate and Assembly

The Joint Interim Committee on Agriculture and Livestock Problems, created by Senate Concurrent Resolution No. 51 (Res. Ch. 141) Regular Session of 1945; continued by Senate Concurrent Resolution No. 4 (Res. Ch. 14) Regular Session of 1947; continued by Senate Concurrent Resolution No. 54 (Res. Ch. 193) Regular Session of 1949; continued by Senate Concurrent Resolution No. 69 (Res. Ch. 221) Regular Session of 1951; and continued by Senate Concurrent Resolution No. 63 (Res. Ch. 240) Regular Session of 1953, submits the following report.

Senate Concurrent Resolution No. 63 (Res. Ch. 240), Regular Session of 1953, gave this committee additional funds for the purpose in part of conducting a comprehensive, impartial, and unbiased study of milk price control in California.

Pursuant to the intent and purpose of Senate Concurrent Resolution No. 63, the chairman of the committee informally discussed with Dr. R. G. Bressler, Jr., director, Giannini Foundation, the matter of the foundation cooperating with the committee in its study of milk price control in California.

At a regularly scheduled meeting of the full committee held in Sacramento, California, on February 20, 1954, the chairman introduced as Exhibit A a letter, to the committee from Dr. Bressler in which it was indicated that the Giannini Foundation would be willing to cooperate with the committee in its study of milk price control in California.

Included in the letter was a suggested outline to be followed in covering a number of phases of the operation of milk control in California. Authorization was immediately given at that meeting for the Giannini Foundation of Agricultural Economics to cooperate with the committee in this study.

This committee submits herewith for the information of the Legislature, a report on fluid milk price control in California undertaken in cooperation with the Giannini Institute. This final report was presented to the committee on May 24, 1955, consequently the committee is not in a position to make any recommendations at this time.

It should be noted here that a preliminary report on fluid milk price control in California was submitted by Dr. R. G. Bressler, Jr., to the committee on December 17, 1954. However, that preliminary report was not submitted as a committee report because DR. Bressler indicated in his letter of transmittal that a final report on that subject would be submitted later, at an appropriate time, and would differ from the preliminary in editorial changes and revisions to the present manuscript.

Respectfully submitted,

PAUL L. BYRNE, Chairman

Letter of transmittal ordered printed in the Journal, and report ordered printed in the Appendix to the Journal.

Motion to Print Report

Senator Byrne moved that 1,500 additional copies of the report submitted by the Joint Legislative Committee on Agriculture and Livestock Problems be printed for distribution.

Motion carried.

Certain of the California water districts are in a transitional stage, changing from predominantly agricultural areas to residential and industrial areas. Protection of public health and safety in such districts requires that adequate water be immediately supplied to these growing residential and industrial areas for fire protection, domestic and industrial use and other needful purposes of such areas. Some districts have been prevented from financing needed water facilities by means of bonds because of defects in existing legislation. The present law creating a prior lien for the first issue of bonds will make later financing of additional facilities difficult, if not impossible. If general obligation bonds are to be sold at a reasonable rate of interest, the bond provisions must be clarified and amplified and a more certain and expeditious method provided for the assessment and collection of district assessments. If this act becomes effective immediately, such districts can finance and construct needed water facilities without delay."

On page 2, after line 31, insert

"SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

Owing to the meandering of the Colorado River since the adoption of the Constitution of California in 1849 and since the adoption of the Arizona Constitution in 1912, doubts exist as to where the true boundary line between the two states may be. Conflicts which may lead to violence, exist between private claimants of title to the same land under the laws of Arizona and under the laws of California. Uncertainties exist as to the right of public officials of California to assess, tax and police certain lands, which uncertainties affect the public revenues of California. Because of said facts it is necessary that this act go into effect immediately."

Amendments read, and adopted.

STATE OF CALIFORNIA, DEPARTMENT OF MENTAL HYGIENE
SACRAMENTO, May 12, 1955

Hon. Harold J. Powers
President of the Senate; and
Hon. L. H. Lincoln
Speaker of the Assembly

Re: Senate Resolution No. 96, Relating to Sonoma State Hospital

DEAR SIRS: In Senate Resolution No. 96 of April 27, 1955, the Director of Mental Hygiene is requested to report the status of measures taken at Sonoma State Hospital to increase the security, to report on the number of psychopathic delinquents kept at such hospital, frequency of escapes, and the relative public danger involved by such escapes.

In response, I submit the following:

1. In 1949, additional personnel were employed for the locked wards together with a force of watchmen. Structural changes were made in three ward units to make them more secure, and a fence was constructed around Paxton and Goddard Cottages. All patients believed to be serious security risks were transferred to Mendocino State Hospital.

The opening of Atascadero made is unnecessary to house maximum security patients at Sonoma. The watchman force has been reduced and the gate leading to Paxton and Goddard Cottages is no longer kept locked.

2. Existing law permits commitment of wards of the juvenile court and psychopathic delinquents to hospitals for the mentally deficient. There is also provision for transfer of Youth Authority cases to these institutions.

During the Fiscal Year 1952-53 one psychopathic delinquent was committed to Sonoma. None was committed in 1953-54. One has been committed so far in 1954-55 Fiscal Year. One is now at Sonoma. This is a boy, age 13, who is diagnosed mentally retarded and epileptic rather than psychopathic delinquent.

3. The ratio of escapes at Sonoma is lower than at Pacific and Porterville State Hospitals, which also care for the mentally deficient. The ratio of escapes from Sonoma is currently less than one-half of the ratio of escapes from the hospitals for the mentally ill.

4. Statistics concerning patients released from California institutions show that the ratio of crimes of violence committed by such patients is only 30 percent of that of the national average for the population in general. On the average, the approximately 3,000 patients at Sonoma can be expected to create a lesser hazard than the same number of persons residing in the community.

It is not humanly possible to predict with absolute certainty what a mental patient might do any more than it is possible to predict what any other person might do. Escapes can be kept at a minimum by adequate security measures but they cannot be prevented altogether in a mental hospital, nor for that matter, in a prison.

The patient giving rise to the present inquiry had been at Sonoma since 1949. He was not a psychopathic delinquent. He had not shown any of the tendencies which would indicate a potentiality for violence.

Some of the patients we are required to accept at Sonoma need medium security such as locked wards, fences, etc., therefore, we could not concur in abolishing all security features at the institution.

Yours very truly,

WALTER RAPAPORT, M.D.
Director of Mental Hygiene

Senate Resolution No. 131

Relative to creating the Senate Interim Committee on the Special Education and Rehabilitation of Handicapped Children and Adults

WHEREAS, There is in California an increasing number of persons handicapped by accidents, disease and from congenital conditions, and it is in the interest of the State to provide such rehabilitation services as are necessary to return them to employment and self-support; and

WHEREAS, Studies reveal that only a small percentage of those workers severely disabled by industrial accidents receive rehabilitation services; and

WHEREAS, There are in our public sanatoriums a large number of tuberculosis patients who are maintained at public expense and will require rehabilitation services to assist them in returning to suitable employment, and such services are not now being adequately provided; and

WHEREAS, A high percentage of those persons receiving public assistance are incapacitated by physical disabilities and it has been demonstrated that many of them can be returned to employment through the application of appropriate rehabilitation services; and

WHEREAS, The establishment of handicapped individuals in business enterprises has provided a successful means of providing rehabilitation services, and an expansion of this type service has been recommended; and

WHEREAS, There are a number of persons who cannot be employed in competitive industry, and it has been recommended that sheltered workshops be established to provide employment and opportunities for self-support; and

WHEREAS, The increase in chronic disease and mental illness has continued and has contributed to the increase in the number of persons confined to institutions at public expense; and

WHEREAS, There are a number of state agencies rendering related services to the handicapped adult without any administrative or functional integration of such services; and

WHEREAS, The Senate interim committees studying these problems in 1953 and 1955 have filed reports pointing out the need for further study of the problem listed above; and

WHEREAS, The Legislative Auditor has recommended that a study be made concerning the location of these services in the various state agencies and how these services can best be coordinated; and

WHEREAS, The Legislative Auditor has recommended that a master plan of rehabilitation services be developed; and

WHEREAS, The education of children is essentially an obligation of the State wherein the philosophy of equal opportunity is recognized; and

WHEREAS, There is an increased number of children who, due to physical and mental handicaps, cannot accommodate themselves to, or profit from, the programs of education offered to children who do not suffer from such handicapping conditions; and

WHEREAS, The distribution of the various types of handicapped children over the State, particularly in rural areas, makes it difficult for many school districts to maintain adequate programs of special education; and

WHEREAS, Special skills are required in the education and training of handicapped children, and there is a shortage of teachers in this field; and

WHEREAS, There are few programs adapted to the needs of handicapped children at the secondary level and there are few organized programs for the vocational guidance and training of the handicapped child; and

WHEREAS, There are a number of agencies rendering related services to the handicapped child without any direct administrative coordination of such service; now, therefore, be it

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO, May 26, 1955

Hon. Harold J. Powers
President of the Senate
Hon. L. H. Lincoln
Speaker of the Assembly

GENTLEMEN: Pursuant to the provisions of Senate Concurrent Resolution Number 16, Session of 1953, the Department of Finance submits herewith a progress report to the Legislature on the study related to a state integrated communication system.

History

Senate Concurrent Resolution No. 16 requests the Director of Finance, in conjunction with the Legislative Auditor, to make a complete survey of the feasibility of utilization of a microwave system of communications, a wire line system of communications, or any alternate system of communications which would meet the need of a more flexible, speedy, and economical way of transmitting messages by public agencies, both state and local, including estimates of the cost of establishing such a system.

The above mentioned resolution was requested by the State Department of Agriculture in order that a review of the feasibility of establishing a state-wide, integrated, microwave system might be conducted. Only a microwave study was contemplated by the department, but at the request of the Pacific Telephone and Telegraph Company, the scope of the study was broadened to include wire lines. About the time this resolution was being considered by the Legislature, the California State Communications Advisory Board endorsed the same policy with particular emphasis on the microwave aspects of the study.

The Department of Agriculture's interest in a state-wide microwave system was brought about by an action on the part of the Federal Communications Commission in May, 1952, to withdraw from the State of California the use of certain radio high frequencies. The high frequencies in question have been used by the Market News Service of the Department of Agriculture since 1928 in disseminating crop and market data throughout a major portion of California. The commission holds that withdrawal from domestic use is made necessary in order to comply with international treaty provisions which reserve, exclusively for international communications, the frequencies now allocated to the State Market News System. In notifying the State of California of its contemplated action, the commission suggested that the Market News substitute microwave circuits or land lines for the transmission of its market news material.

The idea of a state-wide, integrated, microwave system is not new. Such a system, to serve public safety organizations such as fire and police, was proposed in the California Communication Study released in 1948. The Communications Advisory Board as early as June, 1949, unanimously resolved that such a system should be given serious consideration. Representatives of police and fire agencies at state, county, and city levels have long advocated the establishment of a state point-to-point microwave radio system by which intercommunication between these various agencies could be provided state-wide. Police and fire agencies as wall as others in the safety service category make wide use of radio circuits in connection with mobile units and in point-to-point contacts in various sections of the State.

While the utilization of a state-wide microwave system on a day-to-day basis is highly desirable from a public safety standpoint, the availability of such a system during periods of emergency or disaster would appear absolutely essential. The safety service agencies including fire, police, and highway maintenance, are called upon to utilize their full resources during periods of emergency. In some instances the radio circuits of these agencies are the only means of communication available in a given area. Recently there has been added to the many agencies performing emergency service the State Office of Civil Defense, which is dependent upon extensive and reliable radio communications for functioning in times of disaster.

A microwave system would provide immediate voice communication between Sacramento headquarters and the field offices of a safety service agency such as the California Highway Patrol. Area or regional offices could communicate with one another. Designated mobile radio units could enter the microwave system as required. Control circuits could be provided for actuating remotely located radio facilities. Teletype circuits could be provided where a printed copy of the message is essential. From a communication standpoint, any system of communications which might be recommended under the provisions of Senate Concurrent Resolution No. 16 should be so constituted as to accommodate both voice and teletypewriter transmissions. The system should be of such nature as to permit some degree of integration of the present mobile radio voice systems operated by the Division of Forestry, the Department of Highway Patrol, the Division of Highways, the Department of Fish and Game, the State Fire Marshal, the prisons, and the Office of Civil Defense as well as mobile and base station systems of political subdivisions below the state level.

Study to Date

In accordance with the provisions of Senate Concurrent Resolution No. 16, the matter of providing state-wide communication facilities has been reviewed with the following listed concerns. All have been provided with preliminary specifications outlining the scope of the proposed system:

Collins Radio Company
General Electric Company
Motorola Communications & Electronics, Inc.
The Pacific Telephone & Telegraph Company
Radio Corporation of America
The Western Union Telegraph Company

The Pacific Telephone and Telegraph Company operates both radio circuits and land lines. The facilities of this company can conceivably provide the diversity of transmission desired in a state-wide communication system. To date, this company has not submitted a proposal for a state-wide integrated system either by wire, radio, or a combination of these services. However, the company has provided the Director of Finance with a traffic study embracing the Division of Forestry, the Department of Highway Patrol, the Department of Fish and Game, the Division of Highways, the Department of Corrections, the Department of Justice, Youth Authority, the Department of Mental Hygiene, the Division of Beaches and Parks and the Division of Communications. Comment accompanying the study states that, in the opinion of the company, an integrated microwave system, which they estimate would cost approximately $1,000,000, is not economically feasible.

The Western Union Telegraph Company is not in a position to provide voice circuits and, therefore, did not submit a proposal.

Radio manufacturers can provide microwave radio equipment on a basis of outright sale to the State. Such equipment would be installed and tested by the manufacturer and when completed, turned over to the State for operation.

The names of those radio manufacturers submitting estimates of the cost of providing a state-wide microwave system, and the amounts of the estimates are set forth below:

Collins Radio Company	$553,836
Motorola Communications & Electronics, Inc.	820,000
Radio Corporation of America	753,816

Conclusion

In considering the establishment of any radio communication system, it is essential the proposal be fully in accord with the rules, regulations, and decisions of the Federal Communications Commission. The following official dockets are now before that body:

F. C. C. Docket No. 10200, instituted by the commission in May, 1952, deals with the commission's proposal to delete and withdraw from state use, the radio high frequencies now being utilized by the Market News Service of the California Department of Agriculture. To date, the commission has made no final ruling regarding this case.

F. C. C. Docket No. 10777, instituted by the commission as the result of the State filing a petition in February, 1953, requesting determination as to the State's eligibility for an integrated state-wide microwave system; the inclusion of the Market News Service as a participant in such a system, and in addition, permission to handle state administrative traffic in off-peak hours. In this petition the State expressed the desire that the commission make its findings prior to any firm proposal concerning a state-wide microwave system being presented to the California State Legislature. This case likewise still rests with the Federal Communications Commission.

It is the opinion of the Department of Finance that no firm recommendation concerning the establishment of a state-wide communication system, microwave or other, can be made until final rulings are handed down by the Federal Communications Commission under Docket Nos. 10200 and 10777. The commission's final

decision in these two cases might well make meaningless any recommendation concerning a state-wide communication system as envisioned by Senate Concurrent Resolution No. 16.

Yours very truly,

JOHN M. PEIRCE
Director of Finance

RESOLUTIONS

The following resolutions were offered:

By Senator Brown:

Senate Resolution No. 136

Relative to the furnishing of legislative research services by the staff of the Legislative Auditor to the members and committees of the Senate

WHEREAS, There is an increasing need for legislative research services which will make adequate information available to the Members of the Senate and to its committees in considering the numerous complex problems placed before it at each legislative session; and

WHEREAS, The Legislature has created the Joint Legislative Budget Committee, through Sections 9140 to 9143 of the Government Code and Rule 37 of the Joint Rules of the Senate and Assembly, and that committee has employed the Legislative Auditor and his staff of competent, trained research specialists, through which many valuable factual reports and research services have heretofore been provided for the Legislature; and

WHEREAS, Many resolutions for interim studies are now pending before the Senate, requiring the creation of interim committees and the appropriation of substantial amounts of money, which should be used in the most efficient way possible; now, therefore, be it

Resolved by the Senate of the State of California, That each Member of the Senate and each interim committee created by the Senate at this 1955 General Session is hereby requested to make an efficient use of the legislative research facilities available through the staff of the Legislative Auditor and said committees are urged to ascertain whether their needs can be met through the use of these permanent staff members before determining to employ any special research personnel to furnish legislative research services; and be it further

Resolved, That the Secretary of the Senate is directed to forward a copy of this resolution to the Legislative Auditor.

By Senator Richards:

Senate Resolution No. 137

Relative to the creation of the Senate Interim Committee on Area Development and Population Growth

WHEREAS, The State of California has become a mecca for residents of our sister states; and

WHEREAS, As a result of the unprecedented increase in population and shifts in centers of population, especially in Southern California and in specific areas throughout the State of California, tremendous interrelated and unique problems have arisen requiring legislative study and attention, looking to state-wide assistance in the solution of these problems; and

WHEREAS, Sudden shifts in population have brought problems involving area and residential development, relocation of business and industry, new pressures upon public and private facilities, and new requirements for the application of the functions of state, county and city government, with great questions as to the best uniform and related functions of each; and

WHEREAS, These problems of area development and population growth, and the individual questions related thereto, are of such magnitude that they are no longer local in nature, but state-wide in interest and application; and

WHEREAS, Because of the state-wide nature of the problems of homes, servicing, and reaching the full potential advantage of these newly populated areas, are problems heretofore unsolved in California, and are being daily presented to its people and its government; and

WHEREAS, Because of the extreme complexities presented by population shifts and growth, in the fields of housing, interrelated governmental functions, public services, business and area development, proper solutions must be reached in the interests of the people and the fundamental economy of our State, it is thus imperative that the Legislature conduct a thorough study of the matter at the earliest possible date; now, therefore, be it

RESOLUTIONS

The following resolutions were offered:

By Senators Donnelly, Thompson, Cobey, Parkman, Grunsky, Teale, and Robert I. McCarthy:

Senate Resolution No. 139

Requesting the Department of Public Works to make a further survey For a State highway between the Cities of Patterson and San Jose

WHEREAS, Senate Resolution No. 14 of the 1954 First Extraordinary Session requested the Department of Public Works to make a preliminary survey for a state highway between the cities of Patterson and San Jose; and

WHEREAS, The department, pursuant to said resolution, made a survey for such a highway which would be laid out so as to go around the base of Mt. Hamilton on the south side of said mountain and determined that due to the high cost of construction and the heavy grades which would be necessary on said route, thereby making the route unattractive for use by trucks, the construction of a new state highway along said route would receive a very low priority; and

WHEREAS, It is felt that a further survey in connection with such a highway, exploring the possibility of constructing the highway along the base of Mt. Hamilton on the north side of said mountain, might disclose that a highway could be constructed along such route at a lower cost and with less grades than a highway around the south side of Mt. Hamilton; and

WHEREAS, The construction of such highway between the Cities of Patterson and San Jose will be very conducive to the increase of manufacturing activity and recreational activities in the area involved, and will also provide another important escape route from the heavily populated peninsula below San Francisco in case of atomic attack; and

WHEREAS, There is at the present time no direct route between the Cities of Patterson and San Jose, except by way of county-maintained roads through Del Puerto Canyon, which route, by admission of the Department of Public Works in its report to the Legislature on the feasibility of construction of a state highway around the southern base of Mt. Hamilton, is seriously deficient in practically every way; now, therefore, be it

Resolved by the Senate of the State of California, That the Department of Public Works be requested to undertake such further surveys as are necessary to determine the advisability of the construction of a new state highway between the Cities of Patterson and San Jose, such highway to be laid out so as to go around the base of Mt. Hamilton on the north side of said mountain, and to report to the Legislature the results of such surveys as soon as possible and not later than the beginning of the 1957 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate be directed to transmit a copy of this resolution to the Honorable Frank B. Durkee, Director of Public Works.

Resolution read, and referred to Committee on Rules.

By Senator Ed. C. Johnson:

Senate Resolution No. 140

Relative to a study of Section 11006 of the Government Code and the making of deficiency allocations pursuant thereto

WHEREAS, A preliminary study by the Senate Interim Committee on Fish and Game (Senate Resolution No. 15, 1953 Regular Session) has revealed that Section 11006 of the Government Code which authorizes the making of deficiency allocations may be subject to some degree of abuse; and

WHEREAS, It appears that the law as interpreted by the courts permits the bypassing of the normal process of legislative approval of budgetary expenditures; and

WHEREAS, There is seemingly an inequitable situation existing between General Fund agencies, which must adhere strictly to the budget as approved by the Legislature, and Special Fund agencies which are able to obtain deficiency allocations; and

WHEREAS, This has resulted in a somewhat "loose" budgeting on the part of at least one Special Fund agency; and

WHEREAS, The concept of legislative control over budgetary expenditures has apparently been weakening as a result; now, therefore, be it

Resolved by the Senate of the State of California, That the Joint Legislative Budget Committee make a thorough interim study of Section 11006 of the Government Code and the system of deficiency allocations as it is being applied today and as it might be used under less watchful administration.

Resolution read, and referred to Committee on Rules.

When state tide and submerged lands offered for lease by the commission are lands not within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil or gas lease thereon, the commission shall specify a flat-rate royalty to be paid under such lease of 12½ percent in kind, or of 12½ percent of the current market price or the price received for the production removed or sold from the leased land, subject to an allowance for oil treatment and dehydration of not to exceed five cents per net barrel for the royalty oil and shall specify a flat royalty of 10 percent of the current gross market value or price received for all dry gas, natural gasoline, and other products extracted and saved from the gas produced from the leased land, and an annual rental payment in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

When state lands, including tide and submerged lands, offered for lease by the commission are lands within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, the commission shall specify a fixed royalty on oil of not less than 16⅔ percent or a sliding scale royalty commencing at not less than 16⅔ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of 15 percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to a reasonable allowance for oil treatment and dehydration, and an annual rental payable in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands cease to produce oil or gas, the lease shall, nevertheless, continue in full force or effect if within six months after the cessation of production, or such longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations which shall result in the restoration of production of oil or gas from the leased lands."

Amendment No. 10

On page 6, between lines 13 and 14, insert

"SEC. 12. Section 6834 of said code is amended to read:

6834. Whenever the commission determines that lands shall be leased *for oil and gas* as provided in [Articles 3 and 4 of] this chapter and when the form of lease therefor has been prepared by the commission, the commission shall give notice of intention to lease such lands. The notice shall be published in a newspaper of general circulation in the county in which the lands or the greater portion thereof are situated and shall state the time (which shall not be less than 14 days after the last date of publication of the notice) and place for receiving and opening bids, a description of the lands, either as a tract or by parcels, *whether the lands offered for lease are within or are not within the known geologic structure of a producing oil or gas field*, and that the form of lease for the purpose of bidding may be procured at the designated office of the commission.

If the notice is published in a weekly newspaper, it must appear therein on at least two different days of publication and if in a newspaper published oftener, there must be at least five days from the first to the last day of publication, both days included.

SEC. 13. Section 6836 of said code is amended to read:

6836. At the time and place specified in the notice, the commission shall publicly open the sealed bids and shall award the lease for each parcel to the highest qualified bidder, unless in the opinion of the commission, the acceptance of the highest bid for any parcel or parcels is not for the best interests of the State, in which event the commission may reject *all* the bids for such parcel or parcels. Thereupon new bids may be called for and the parcel or parcels for which the bids were rejected may be leased as herein provided.

SEC. 14. Section 6871 of said code is amended to read:

6871. Tide and submerged lands *and beds of navigable rivers and lakes* may be leased by the commission for the extraction of oil and gas in accordance with the provisions of this article and of this chapter insofar as not in conflict with the provisions of this article. *The tide and submerged lands along the coast of the Pacific Ocean which may be leased for the production of oil and gas are the areas specified in this article.* No political subdivision of the State or any city or county or any official of either or any of them shall grant or issue any lease, license, easement, privilege, or permit vesting authority in any person to take or extract oil or gas from tide or submerged lands whether filled or unfilled of which the State is the owner or from which the State has the right to extract oil or gas, or both.

SEC. 15. Section 6871.1 is added to said code, to read:

6871.1. Except as provided in Section 6871.2 of this code, the tide and submerged lands of the State along the coast of the Pacific Ocean which may be leased pursuant to Section 6871.3 of this code for the production of oil and gas are those extending from the northerly city limits of the City of Newport Beach, Orange County, to the Town of Oceano, in the County of San Luis Obispo.

SEC. 16. Section 6871.2 is added to said code, to read:

6871.2. Except as provided in Sections 6872 and 6872.1 of this code, the commission shall not enter into any lease for the extraction of oil and gas from state-owned tide and submerged lands within the areas to which this section is applicable.

The provisions of this section shall be applicable only to the lands within the following described areas, but shall not be construed so as to prohibit operations or activities under any state oil and gas leases of any portion or portions of the tide and submerged lands to which this section is applicable and which leases are in effect on January 1, 1955, nor to prohibit renewals or extensions of any such leases in accordance with the provisions thereof.

(a) All those tide or submerged lands situated in the areas of the County of Los Angeles described as follows:

Area No. 1: Beginning at the point of intersection of the ordinary high water mark of the Pacific Ocean with the southerly point of Point Fermin; thence in a generally northerly and westerly direction along said ordinary high water mark to Dume Point; thence due south three nautical miles to a point in the Pacific Ocean; thence in a generally easterly and southerly direction parallel to said ordinary high water mark to a point in the Pacific Ocean three nautical miles due south from the point of beginning; thence due north to the point of beginning.

Area No. 2: The tide and submerged lands surrounding the islands of San Clemente and Santa Catalina waterward of the ordinary high water mark of the Pacific Ocean on such islands to a distance three nautical miles therefrom.

(b) All those tide and submerged lands being in the County of Santa Barbara and lying within an area beginning at the point of intersection of the ordinary high water mark of the Pacific Ocean with the westerly line of that certain 408.60 acres, more

or less, tract of land shown as belonging to the University of California, Santa Barbara College, upon that certain map thereof, recorded in Book 29 at page 143 Record of Surveys, in the Office of the Santa Barbara County Recorder; thence in a general easterly direction along said ordinary high water mark of the Pacific Ocean to a point distant 500 feet westerly from, measured at right angles thereto, the southerly prolongation of the easterly line of that certain tract of land deeded to Nino Brambilla, et ux., by that certain deed, recorded April 2, 1947, in Book 724 at page 353 of Official Records, in said county recorder's office; thence due south to a point in the Pacific Ocean three nautical miles from said ordinary high water mark; thence in a general westerly direction, parallel with the ordinary high water mark of the Pacific Ocean to a point due south from the point of beginning; thence due north to the point of beginning;

(c) All those tide and submerged lands being in the County of San Luis Obispo and lying within an area beginning at a point on the ordinary high water mark of the Pacific Ocean at the center line of the pier at the Pismo Beach State Beach Park; thence southerly along the ordinary high water mark of the Pacific Ocean to a point 10 statute miles distant in a direct line from said point of beginning; thence on a line due west into the Pacific Ocean a distance of three nautical miles to a point; thence northerly on a line parallel to the ordinary high water mark of the Pacific Ocean to a point which lies due west a distance of three nautical miles from a point on the ordinary high water mark of the Pacific Ocean, which point is distant in a direct line one statute mile northerly from the intersection of the ordinary high water mark of the Pacific Ocean with the center line of the pier in the State Beach Park at Cayucos; thence southerly along the ordinary high water mark of the Pacific Ocean to the point of beginning.

SEC. 17. Section 6871.3 is added to said code, to read:

6871.3. Whenever it appears to the commission that it is for the best interests of the State to lease lands subject to the provisions of Section 6871.1 of this code for the production of oil or gas therefrom, or whenever a person who possesses the qualifications provided in this chapter makes written request therefor, the commission may, subject to the provisions of Section 6871.4, offer the same for bidding at such times and in such parcels as the commission shall determine to be in the best interests of the State.

SEC. 18. Section 6871.4 is added to said code, to read:

6871.4. The commission may divide the lands within the area proposed to be leased into parcels of convenient size and shape and shall prepare a form of lease or leases therefor embracing not to exceed 5,760 acres in any one lease, and if the lands are not within the known geologic structure of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, such lease shall embrace not less than 1,920 acres, or the whole thereof if less than 1,920 acres are available for leasing.

SEC. 19. Section 6872 of said code is amended to read:

6872. [Whenever it appears to the commission] *Tide and submerged lands along the coast of the Pacific Ocean other than those which may be leased under Section 6871.1 and Section 6872.1 may be leased by the commission if the commission shall determine (1)* that oil or gas deposits are [known or] believed to be contained in [any] such lands [and may be or], *(2) that the same* are being drained by means of wells upon adjacent lands, *and (3) that the leasing of the same* [the commission shall thereupon be authorized and empowered to lease any such lands, either as a tract or in parcels of such size and shape as the commission shall determine,] for the production of oil and gas [therefrom] *will be in the best interests of the State.*

SEC. 20. Section 6872.1 is added to said code, to read:

6872.1. Whenever it appears to the commission that oil and gas deposits are known or believed to be contained in any such lands as are described in Section 6871.2, subdivision (b), of this code and are being drained by means of wells upon adjacent lands owned by others than the State, the commission shall thereupon be authorized and empowered to lease state-owned tide and submerged lands adjacent to any such wells for the production of oil and gas therefrom, either as a tract or in parcels of such size and shape as the commission shall determine but only within an area and to an extent necessary to offset such drainage of state-owned tide and submerged lands by any such wells upon adjacent lands owned by others.

SEC. 21. Section 6872.2 is added to said code, to read:

6872.2. If the commission determines that any tide and submerged lands belonging to the State in the area hereinafter referred to should be drilled pursuant to the terms of Section 6872 of this code, then, notwithstanding the provisions of Section 6874 of this code, in order to preserve and protect the highly developed recreational and residential area now referred to, the commission shall require that any well or wells drilled pursuant to the terms of any lease issued with respect to any part of the hereinafter described area be slant drilled from an upland or littoral site to and into the subsurface of the tide or submerged lands covered by the lease. The area to which this section is applicable is the tide and submerged lands along the Coast of the Pacific Ocean south of the Santa Ana River in Orange County to the southerly boundary of the State.

SEC. 22. Section 6873 of said code is amended to read:

6873. [The] *When leasing tide or submerged lands, the* commission shall prepare a form of lease which shall contain, in addition to other provisions deemed desirable and necessary by the commission, appropriate provisions contained in this chapter and the following:

(a) Each well drilled pursuant to the terms of the lease [shall] *may* be [drilled only upon filled lands or shall be] slant-drilled [from an upland or littoral drill site] to and into the subsurface of the tide or submerged lands covered by the lease[, or shall be drilled or slant-drilled to and into the subsurface of tide or submerged lands covered by the lease, from a drill site located upon any pier heretofore constructed for drilling purposes and available for such drilling upon any tide or submerged lands described in any valid existing lease heretofore issued pursuant to the provisions of Chapter 303, Statutes of 1921, as amended, if in the judgment of the commission such drilling will be in the public interest. The derricks, machinery, and any and all other surface structures, equipment, and appliances shall be located only upon filled lands or upon the littoral lands or uplands, or upon any pier heretofore constructed and available for such drilling upon any tide or submerged lands described in any valid existing lease heretofore issued pursuant to the provisions of Chapter 303, Statutes of 1921, as amended, and all surface operations shall be conducted therefrom.] *from upland or littoral drill sites owned or controlled by the State or owned by or available to the lessee, or from drill sites located upon any filled lands heretofore or hereafter filled, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier heretofore or hereafter constructed, owned by or available to the lessee and available for such purpose, or from platforms or other fixed or floating structures in, on or over the tide or submerged lands covered by the lease or otherwise available to the lessee.*

(b) Pollution and contamination of the ocean and tidelands and all impairment of and interference with bathing, fishing or navigation in the waters of the ocean or any bay or inlet thereof is prohibited, and no oil, tar, residuary product of oil or any refuse of any kind from any well or works shall be permitted to be deposited on or pass into the waters of the ocean or any bay or inlet thereof.

(c) If the lessee, as disclosed by information submitted with his bid, proposes to drill one or more wells from filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier or from platforms or other fixed or floating structures to be constructed for such purpose, and if permission from any federal or state agency is legally required in order to construct any such filled land or structures, the lessee shall be allowed a reasonable time following the execution of the lease and prior to the commencement of the drilling term thereof within which to secure the necessary permission from such federal and state agencies as shall be legally required, and, upon the securing of such permission, a further reasonable time, determined with regard to the nature of the filled lands or structure or structures to be constructed, within which to commence operations for the drilling of such well or wells, and, if necessary, the drilling term of the lease shall be extended by the commission to the date to which the time to commence operations for the drilling of such well or wells has been extended.

[(c) Impairment of or interference with developed shore line recreational areas or residential areas is prohibited.]

(d) Any offshore filled lands or structure or structures constructed for the purpose of drilling pursuant to this section shall conform to the rules and regulations of the commission in effect at the time of invitation for bids in pursuance of which the lease is awarded. Drilling, whether from upland, littoral or offshore locations, shall be conducted in conformance with such rules and regulations in effect at the time of invitation for bids in pursuance of which the lease is awarded.

SEC. 23. Section 6873.1 is added to said code, to read:

6873.1. Filled lands shall include, but not be limited to, tide or submerged lands reclaimed artificially through raising such lands above the highest probable elevation of the tides to form dry land, by placement of a fill or deposit of earth, rock, sand or other solid imperishable material. Such fill may be retained in place or protected by bulkheads, seawalls, revetments or similar enclosures and may be placed at any location approved by the commission under a lease heretofore or hereafter issued pursuant to this article.

SEC. 24. Section 6873.2 is added to said code, to read:

6873.2. Before offering any tide or submerged land area for an oil and gas lease, the commission shall publish notice thereof, and any affected city or county may, within fifteen (15) days after the publication of such notice, request in writing to the commission that a hearing be held with respect thereto. Upon receipt of such request, the commission shall hold such a hearing and give not less than ten (10) days notice thereof to the city or county, or both such city and county, making such request, and to the Department of Natural Resources, and shall publish such notice. The commission in its discretion and irrespective of any such request may hold such hearings as it shall determine. All notices shall be given in the manner prescribed in Section 6834 of this chapter.

Within thirty (30) days after such hearing the commission shall determine to offer the land for lease, as provided under Sections 6871.3, 6872 and 6872.1, unless the commission shall determine that the issuance of a lease as to all or a part of such land would result in an impairment or interference with the developed shore line recreational or residential areas adjacent to the proposed leased acreage, or the commission may determine to offer such land for lease as to all or a part thereof and include in the offer for lease such reasonable rules and regulations which, in the opinion of the commission, are necessary for the exploration, development, and operation of said lease in a manner which will not impair or interfere with said developed shore line recreational or residential areas. Provided, however, that no tide or submerged lands shall be offered for lease under any conditions, rules, or regulations which will result in a discrimination between bidders as prohibited by Section 6874.

The commission in determining whether the issuance of such lease or leases would result in such impairment or interference with the developed shore line, recreational or residential areas adjacent to the proposed lease acreage or in determining such rules and regulations as shall be necessary in connection therewith shall at said hearing receive evidence upon and consider whether such proposed lease or leases would

(a) Be detrimental to the health, safety, comfort, convenience, or welfare of persons residing in, owning real property, or working in the neighborhood of such areas;

(b) Interfere with the developed shore line, residential or recreational areas to an extent that would render such areas unfit for recreational or residential uses or unfit for park purposes;

(c) Destroy, impair, or interfere with the aesthetic and scenic value of such recreational, residential or park areas;

(d) Create any fire hazard or hazards, or smoke, smog or dust nuisance, or pollution of waters surrounding or adjoining said areas.

Authority to hold the hearings provided in this section may be delegated by the commission to its officers or employees.

SEC. 25. Section 6874 of said code is amended to read:

6874. [In any notice of intention to lease tide or submerged lands, the commission may include a requirement that each prospective bidder, as a condition precedent to the consideration of his bid and in addition to the other qualifications required by this chapter, shall present evidence satisfactory to the commission of his present ability to furnish all necessary sites and rights of way for all operations contemplated under the provisions of the proposed lease. In such event the commission shall reject the bids of all bidders who fail to qualify as provided by this section.]

Each bid shall be accompanied by information giving a description of the location or locations, structure or structures, from which the bidder proposes to drill. In awarding a lease, the commission shall not discriminate between bidders by prohibiting drilling from upland or littoral drillsites, or drilling from sites upon filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or upon any pier or platform or other fixed or floating structure in, on or over tide and submerged lands with respect to which the State or other owner thereof has consented to such use; provided, however, that in the event state-owned tide or submerged lands are determined by the commission to contain oil or gas deposits which are being drained by wells owned by others upon adjacent lands, and such state-owned tide and submerged lands cannot be developed by a particular method of exploration, development or operation without interfering with or impairing developed shore line, recreational or residential areas, then the commission may offer and award an oil and gas lease on such lands with a prohibition against said particular method of exploration, development or operation."

If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable."

COMMUNICATIONS

The following communication was received and read, and, on motion of Senator Hulse, ordered printed in the Journal:

STATE OF CALIFORNIA, DEPARTMENT OF FINANCE
SACRAMENTO 14, May 26, 1955

Hon. Ben Hulse, Chairman
Senate Finance Committee
State Capitol
Sacramento, California

DEAR SENATOR HULSE: You have inquired whether the Department of Finance would approve expenditures from the budget of the Department of the California Highway Patrol for the current or 1955-56 Fiscal Years for the purchase of radar equipment to be used in connection with apprehending speeders.

There is no specific provision in either budget for this equipment. Furthermore, in view of the unfavorable action on Assembly Bill No. 594 which would have authorized the use of such equipment, and in the absence of the enactment of such legislation, it would be the understanding of this department that the purchase of such equipment would be contrary to legislative intent. Accordingly the Department of Finance would not approve any such purchases.

Very truly yours,

JOHN M. PEIRCE
Director of Finance

"18369. The governing board of the school district shall ascertain the general prevailing rate of per diem wages in the locality in which the building is to be constructed for each craft, classification or type of workman needed for the construction of the building and shall specify in the resolution and in the notice, required by Section 18364, and in the lease or agreement made pursuant to this article, what the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality is for each craft, classification or type of workmen needed for the construction of the building. The holidays upon which such rate shall be paid need not be specified by the governing board, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

In determining such rates, the governing board shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the governing board shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall not be less than the prevailing rate paid in such craft, classification or type of work.

Any agreement or lease entered into pursuant to this article shall require that such general prevailing rates will be paid. It shall also require that work performed by any workman employed upon the project in excess of eight hours during any one calendar day shall be permitted only upon compensation for all hours worked in excess of eight hours per day at not less than one and one-half times the basic rate of pay. There may also be included in leases or agreements entered into pursuant to this article any other requirements with respect to matters related to the subject of this section which the governing board deems necessary or desirable.

18370. The provisions of this article prevail over any provisions of law which conflict therewith."

WHEREAS, Overcrowded conditions in the State's mental hospitals, inadequate facilities at state colleges to accommodate present applications, inadequate community hospitals to serve the public, inadequate public schools necessitating double sessions, and other needs for capital outlay funds, including state office buildings, make clear the fact that considerable difficulty will be encountered in the immediate future in meeting all of the State's capital outlay needs; and

WHEREAS, Funds appropriated for the acquisition of a new prison site in 1948 have not been expended and the immediate expenditure of such funds will commit the State to the expenditure of 15 to 20 million dollars for a new prison; and

WHEREAS, In view of the needs recited in this resolution which should have priority over a new prison and further in view of the fact that there has been no demonstrated need for a new prison in the foreseeable future based upon the prison population projection to 1965; now, therefore, be it

Resolved by the Senate of California, That the Director of Finance is hereby advised that no approval should be given any prison site purchase prior to further positive action by the Legislature in the form of an appropriation for the establishment of a new prison.

Motion to Rescind Reconsideration

Senator Byrne moved to rescind the action of the Senate on May 28, 1955, whereby the vote on final passage of Senate Bill No. 1171 was reconsidered.

The roll was called, and the motion carried by the following vote:

AYES—Senators Abshire, Berry, Breed, Brown, Busch, Byrne, Collier, Coombs, Cunningham, Dilworth, Dorsey, Gibson, Grunsky, Hulse, Ed. C. Johnson, Kraft, John F. McCarthy, Robert I. McCarthy, Murdy, Parkman, Thompson, and J. Howard Williams—22.

Motion to Correct Journal

Senator Byrne moved that the Senate Journal for May 28, 1955, at page 3649 be corrected to show that Senate Bill No. 1171 was passed by the Senate by the vote there shown rather than refused passage, and that the bill be ordered transmitted to the Assembly.

Point of Order

Senator Burns arose to a point of order and stated that the Journal is correct, because the President of the Senate, when the bill was called up, stated that the bill was refused passage. The Journal records the decision of the President and the chair ruled that Senate Bill No. 1171 was refused passage.

The President ruled the point not well taken because it does not take 27 votes to pass that particular bill.

Point of Parliamentary Inquiry

Senator Miller arose to a point of parliamentary inquiry and asked what the disposition of the bill would be if the Senate refused Senator Byrne's motion to correct the Journal.

The President stated that the bill, having recevied the required number of the votes, the Secretary had no choice but to transmit the bill to the Assembly.

Point of Parliamentary Inquiry

Senator Breed arose to a point of parliamentary inquiry and asked if it were not true that if a bill has the necessary votes to pass, that it

isn't the decision of the chair but the actual number of votes that determines whether or not the bill passes.

The President stated that the courts do not go behind the signatures of the officers of the house.

Point of Order

Senator Miller arose to a point of order and stated that the bill is inoperative without the appropriation.

The President ruled the point not well taken and stated that it is not the duty of the chair to determine the merits of a bill.

The President directed the Secretary to call the roll.

The roll was called and Senator Byrne's motion to correct the Journal on page 3649 of May 28, 1955, carried by the following vote:

AYES—Senators Abshire, Berry, Breed, Busch, Byrne, Collier, Coombs, Cunningham, Dilworth, Donnelly, Dorsey, Gibson, Grunsky, Hulse, Ed. C. Johnson, Kraft, John F. McCarthy, Murdy, Parkman, Richards, Thompson, and J. Howard Williams—22.

NOES—Senator Miller—1.

The President ordered Senate Bill No. 1171 transmitted to the Assembly.
